ACADEMY OF PSYCHOLOGICAL CLINICAL SCIENCE (APCS)

Thursday, May 25

8:00 AM – 12:00 PM

The Fens

Meeting of the Academy of Psychological Clinical Science

AMERICAN COLLEGE OF PROFESSIONAL NEUROPSYCHOLOGY (ACPN)

WORKSHOPS

Thursday, May 25

9:00 AM – 12:00 PM

Beacon F

Introduction to the Neuropsychological Assessment

Arthur M. Horton, Jr., Psych Associates

Clinical neuropsychology is an applied science focusing on the relationship between the brain and behavior. Neuropsychological assessment utilizes specialized psychological tests to evaluate a wide variety of cognitive functions and behaviors that are dependent on the structural and functional integrity of the brain.

1:30 PM – 4:30 PM

Beacon F

Neuropsychology of Drug Abuse, Pathological Gambling, and Sex Addiction

Arthur M. Horton, Jr., Psych Associates

Addiction to drugs, gambling, and sex presents a major problem for society. This workshop will focus on the neuropsychological effects of abused drugs, such as cocaine, heroin, and alcohol, and the neuropsychological assessment of drug abusers. In addition, the neuropsychology and characteristics of pathological gamblers and sex addicts will also be covered.

SCIENCE OF CHANGE

Thursday, May 25

8:00 AM – 4:40 PM

Riverway

3rd Annual Meeting: Neuroimaging Mechanisms of Behavior Change

CO-CHAIR: **Sarah Feldstein Ewing**, Oregon Health & Science University

CO-CHAIR: **Tammy Chung**, University of Pittsburgh

Presentations:

Rita Goldstein, Icahn School of Medicine at Mount Sinai, New York

Damien Fair, Advanced Imaging Research Center and Oregon Health & Science University

Tony George, University of Toronto, Canada

Elliot Stein, National Institute on Drug Abuse

James MacKillop, McMaster University, Canada

Elliot Berkman, University of Oregon

Martin Paulus, Laureate Institute for Brain Research

The goal of this meeting is to provide an innovative and synergistic forum to foster cross-disciplinary collaboration between neuroscientists and clinicians in conducting research on mechanisms of behavior change.

SOCIETY FOR THE STUDY OF MOTIVATION (SSM)

Thursday, May 25

8:00 AM – 8:00 PM

Back Bay B

10th Anniversary Meeting

The 10th Anniversary Meeting of the Society for the Study of Motivation will take place on May 25 in the Sheraton Boston Hotel. This year's program will feature a keynote address by Geoffrey Cohen (Stanford University), a presidential address by Peter Gollwitzer (New York University and University of Konstanz, Germany), several symposia, a data blitz session, a poster session, and the Annual SSM Members Business Meeting. Registration will be outside of Back Bay B.

UMass Lowell Department of Psychology **GRADUATE PROGRAMS**

The Department of Psychology offers graduate programs that foster critical and creative thinking grounded in the principles, methods and ethics of psychology as a scientific discipline and as a profession.

MASTER OF ARTS IN COMMUNITY SOCIAL PSYCHOLOGY

Faculty and students of the Community Social Psychology (CSP) master's degree program are committed to social justice and the empowerment of all individuals and communities. The program prepares graduates with the analytic, creative and practical skills needed to design and implement programs and services that will facilitate positive changes in communities.

The 36-credit program combines in-class learning, independent study, interdisciplinary collaboration and a one-year supervised practicum experience.

For more information: csp@uml.edu

MASTER OF SCIENCE IN AUTISM STUDIES

The Master of Science in Autism Studies Program (ASP) provides students with a full understanding of autism spectrum disorder. Through a blend of online and campus courses and practicum experience, students who complete the 42-credit program will be prepared for the national certification exam to become Board Certified Behavior Analysts® (BCBA®).

As BCBA's, graduates can work with schools and other agencies, supervise other direct service providers and conduct research.

For more information: asp@uml.edu

DOCTOR OF PHILOSOPHY IN APPLIED PSYCHOLOGY AND PREVENTION SCIENCE

The doctorate in Applied Psychology and Prevention Science (APPS), established in 2015, trains students and current practitioners to address real-world problems, promote optimal quality of life outcomes and encourage engagement in research across the curriculum with a goal of publication.

Students choose from one of three concentrations: community and applied social psychology, applied cognitive psychology or applied developmental psychology.

JUNE 26-30
29th International Congress
of Applied Psychology
MONTREAL

The International Association of Applied Psychology (IAAP) and the Canadian Psychology Association (CPA) invite you to attend the 29th International Congress of Applied Psychology (ICAP 2018) in beautiful Montréal, Québec, Canada.

Montréal is a premier location to host the 29th ICAP congress, with a centrally located convention centre, an assortment of cultural and historical attractions, as well as a variety of local food and music!

Psychology: Connecting Science to Solutions – the theme for the congress – was chosen to promote an increased exchange among psychologists from around the globe in their common pursuits of science and science-based solutions.

Join us in Montréal, Canada, from June 26-30, 2018 and be a part of this enhanced dialogue in psychological science!
