

Reinventing Introductory Psychology

Evidence Worksheet

Where did I find the evidence?								
What did the evidence say?								
What type of evidence is it?	Something that I or someone else heard (hearsay)	Published story (anecdote)	Case study	Survey	Correlational study	Controlled experiment	Meta-analysis	Other (please specify)
Rate the strength of the evidence on a scale of 1=10 (with 10 being the strongest) and say why you gave that rating.
