

## THURSDAY | MAY 23

### ACADEMY OF PSYCHOLOGICAL CLINICAL SCIENCE (APCS)

8:00 AM – 12:00 PM Thurgood Marshall Ballroom West

#### Meeting of the Academy of Psychological Clinical Science

Representatives and interested faculty members from clinical science training programs that have been accepted into membership to the Academy are invited to attend. A continental breakfast will be served at 8:00 AM, and the meeting will start at 8:30 AM.

### AMERICAN COLLEGE OF PROFESSIONAL NEUROPSYCHOLOGY (ACPN)

9:00 AM – 11:50 AM Taft

#### ACPN Workshop: Introduction to Neuropsychological Assessment

**Arthur MacNeill Horton Jr.**, American College of Professional Neuropsychology

This workshop will focus on various aspects of neuropsychological assessment as an introduction to this area. Clinical neuropsychology is an applied science which is concerned with the relationship between the brain and behavior. It integrates the fields of clinical psychology and behavioral neurology and attempts to evaluate individuals suspected of having focal or diffuse brain dysfunction. Neuropsychological assessment utilizes specialized psychological tests to evaluate a wide variety of cognitive functions and behaviors that are dependent on the structural and functional integrity of the brain.

1:30 PM – 4:20 PM Taft

#### ACPN Workshop: Neuropsychology of Drug Abuse, Pathological Gambling, and Sex Addiction

**Arthur MacNeill Horton Jr.**, American College of Professional Neuropsychology

Addiction to drugs, gambling and sex are major social problems. This workshop will focus on the neuropsychological effects of abused drugs, such as cocaine, heroin, and alcohol, and neuropsychological assessment of drug abusers. In addition, the neuropsychology of and characteristics of pathological gamblers and sex addicts will also be covered.

More than 3,000 psychological scientists have joined the APS Wikipedia Initiative (APSWI).

FRIDAY | MAY 24

## SOCIETY FOR A SCIENCE OF CLINICAL PSYCHOLOGY (SSCP)

2:30 PM–3:50 PM

Washington 2

### Enhancing the Clinical Training Toolkit: Training Today for the Psychologists of Tomorrow

CHAIR: **Alexandra J. Werntz**, University of Virginia

#### Presentations:

**Bethany A. Teachman**, University of Virginia

**Stacy Frazier**, Florida International University

**Jason Washburn**, Northwestern University

**Eric Youngstrom**, The University of North Carolina at Chapel Hill

**David A. Sbarra**, The University of Arizona

This panel will focus on key issues facing graduate training in clinical psychology, and how training programs and clinical science organizations can prepare students for the future of our field. Panelists will discuss how various programs can meet the needs identified by current students and discuss the role of technology in training.

4:00 PM–4:50 PM

Washington 2

### SSCP Presidential Address—From Empirically Supported to Global Impact: Takeaway Lessons From the Body Project

**Carolyn B. Becker**, Trinity University

Clinical psychological science has made significant progress in developing evidence-based interventions (EBIs). Yet we continue to struggle in reducing both the research practice gap and treatment gap. The Body Project is a psychosocial EBI that has reached over 3.5 million girls/young women globally. This talk will explore possible lessons from the Body Project in the context of both the research practice gap and treatment gap.

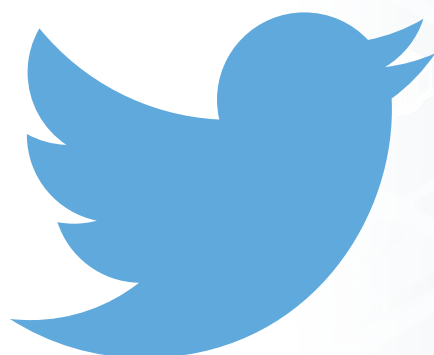

5:00 PM–5:50 PM

Washington 2

### SSCP Distinguished Scientist Award Address—Prevention of Depression in Youth: Current Evidence and Future Directions

**Judy Garber**, Vanderbilt University

Depression can be prevented. Garber will present results of randomized controlled trials demonstrating the efficacy of interventions aimed at preventing depression in adolescents, and will discuss moderators, mediators, and cost effectiveness. Despite considerable progress, however, important questions remain regarding the durability, generalizability, and dissemination of programs for preventing depression in youth.
